March 2016
The Breast Cancer Survivorship Clinic at Monash Health is a nurse led clinic to facilitate transition from end of treatment to ongoing health and wellbeing.

The aim of this clinic is to address quality of life issues such as:
- Emotional
- Physical
- Practical
- Social
- Womens health:
  - Menopause
  - Sexuality
  - Fertility

**Is the Breast Cancer Survivorship Clinic suitable for me?**

Appointments at the clinic will be offered to patients as they transition onto shared care with their GP following completion of treatments such as chemotherapy and radiotherapy.

**What can I expect during the clinic?**

Prior to your appointment at the clinic we will ask you to complete some brief questionnaires regarding your current needs in terms of information and support. The breast care nurse will develop a health and well being plan during your consultation.

**How long will the appointment take?**

Allow approximately 45 minutes.

**What if I cannot attend clinic?**

A telephone consultation can be arranged.

**Can I get referred to other services?**

Yes, the breast care nurse can make referrals to other specialist services according to your assessed needs.
